

Chris Tham

artist, consultant, cyclist, designer, musician, photographer, world traveller

I'm Chris Tham, an outrageous actualiser based in Sydney. I'm the founder and Junior Janitor of Hello Tham, a boutique strategy consulting company.

I live in Sydney, and love art, cycling, design, fashion, photography, music, and travel (not necessarily in those order). My work life has focused on technology and strategy, mainly in the finance industry.

This website has been built using a design system called Rosely.

Superpowers

AI Agents have skills. Humans have superpowers :-)

- **Curiosity** — Continuously explores new ideas, asks better questions, and uncovers hidden opportunities.
- **Empathy** — Understands what others feel, builds trust quickly, and creates stronger collaboration.
- **Resilience** — Recovers from setbacks with clarity and momentum, turning obstacles into growth.
- **Creativity** — Connects unrelated concepts to generate original solutions and fresh perspectives.
- **Focus** — Prioritizes what matters most and executes with consistency despite distractions.
- **Adaptability** — Learns fast, adjusts to change, and performs effectively in uncertain environments.

- **Communication** — Translates complex ideas into clear messages that inspire action.
- **Systems Thinking** — Sees patterns across people, process, and technology to solve root causes.
- **Leadership** — Aligns teams around a shared vision and helps others do their best work.
- **Humility** — Stays open to feedback, learns from mistakes, and improves continuously.

Writing on Life, the Universe and Everything.

All of my long-form thoughts on life, the universe, and everything, collected in chronological order.

These articles are where I explore thoughts on various topics. The collection arranged chronologically so you can follow how these perspectives have evolved over time.

Work History

My professional career and work experience over the years.

I have a background in software engineering, solution architecture, and technical leadership. Here is a summary of my professional journey.

Websites I have made.

I've worked on tons of little projects over the years but these are the ones that I'm most proud of.

Many of these projects are open-source, so if you see something that piques your interest, check out the code and contribute if you have ideas for how it can be improved.

Things I have created.

I love creating all sorts of things. Here is a selection of music and videos that I have made.

This page gathers a selection of orchestral and electronic music I have composed, arranged, produced, and shared, including studio work, live-inspired experiments, and personal creative milestones.

Things I use and love.

Here's a big list of all of my favorite stuff, that I use everyday, or at least whenever I can. I love using good quality tools and equipment.

Over the years, I've refined this setup to focus on tools that are reliable, thoughtfully designed, and a joy to use. Whether it's software, computing gear, music production equipment, audio-visual components, or photography kit, each item here has earned its place through frequent use and long-term value.
