

Chris Tham

artist, consultant, cyclist, designer, musician, photographer, world traveller

I'm Chris Tham, an outrageous actualiser based in Sydney. I'm the founder and Junior Janitor of Hello Tham, a boutique strategy consulting company.

I live in Sydney, and love art, cycling, design, fashion, photography, music, and travel (not necessarily in those order). My work life has focused on technology and strategy, mainly in the finance industry.

This website has been built using a design system called Rosely.

Superpowers

AI Agents have skills. Humans have superpowers :-)

Self evaluation against SFIA9:

Writing on Life, the Universe and Everything.

All of my long-form thoughts on life, the universe, and everything, collected in chronological order.

These articles are where I explore thoughts on various topics. The collection arranged chronologically so you can follow how these perspectives have evolved over time.

Work History

My professional career and work experience over the years.

I have a background in software engineering, solution architecture, and technical leadership. Here is a summary of my professional journey.

Education

My academic background and qualifications.

I am a lifelong learner. Here is a summary of my formal education and academic achievements.

Websites I have made.

I've worked on tons of little projects over the years but these are the ones that I'm most proud of.

Many of these projects are open-source, so if you see something that piques your interest, check out the code and contribute if you have ideas for how it can be improved.

Things I have created.

I love creating all sorts of things. Here is a selection of music and videos that I have made.

This page gathers a selection of orchestral and electronic music I have composed, arranged, produced, and shared, including studio work, live-inspired experiments, and personal creative milestones.

Things I use and love.

Here's a big list of all of my favorite stuff, that I use everyday, or at least whenever I can. I love using good quality tools and equipment.

Over the years, I've refined this setup to focus on tools that are reliable, thoughtfully designed, and a joy to use. Whether it's software, computing gear, music production equipment, audio-visual components, or photography kit, each item here has earned its place through frequent use and long-term value.
